-2-

1. ACTION MEMO with SCHEDULE: EAP should prepare an action memo to the Secretary outlining his final schedule for the trip. The memo, to be cleared by PA, should recommend possible bilaterals for the Secretary. A cable to posts outlining the Secretary's schedule should be attached to the memo and is due in S/S-S at COB May 21.
2. ACTION MEMO with PARTICIPANTS: Based on above, EAP should prepare an action memo to the Secretary with recommendations for participants in all meetings, meals and other events. This memo, to be cleared by PA, should also assign notetakers for each event listed. It should be prepared in cable form, under cover of an action memo, and is due in S/S-S at COB June 16.
3. SCOPE PAPER: EAP should prepare a trip scope paper and individual country scope papers (in the form of a briefing outline for the Secretary from Assistant Secretary Wolfowitz) for the trip. The scope paper should present a concise yet thorough strategy for meeting the goals of the visit, and should explain how and why specific meetings, events, and public statements will enable the Secretary to accomplish these goals. The scope paper should not be longer than five pages in length, and should be cleared with S/P, D, and P at a minimum. The scope paper is due in S/S-S no later than COB June 12.
4. BRIEFING OUTLINES: EAP should prepare a briefing outline for each of the Secretary's meetings with foreign officials. The memos should be done in standard briefing outline format. Please note that the Objectives section of the memo is a list of the goals for the meeting; it is not a summary of the briefing material nor a simple reiteration of the "crib" sheet mentioned below. Briefing memos should not normally exceed four pages: (No bullet papers will be necessary.) These memos are due in S/S-S, cleared by D, P and other appropriate bureaus, no later than COB June 18.

As of May 15 and pending the Secretary's approval, the following meetings are anticipated: (additional briefing memos should be prepared as meetings are scheduled)

These would include arrival and departure statements and toasts, as well as any other public remarks the Secretary might be expected to make in each country. All statements drafted for the Secretary should be cleared by PA and S/P. Statements should be double-spaced on plain white bond paper, and each page should end in a complete sentence. Contingency toasts must be prepared for every luncheon or dinner at which the Secretary will be present with foreign leaders. These statements are due in S/S-S no later than COB June 18.

DEPARTMENT OF STATE

BRIEFING PAPER

HONDURAS: INTERNAL POLITICS

I. Honduras is an Emerging Democracy.

- o January 1982 saw civilian government return after 18 years of near-continuous military rule. Democratic institutions are weak but have shown resilience.
- o Presidential elections are scheduled for November. GOH policy toward regional problems and the U.S. is not likely to be fundamentally affected by the election outcome.
- o A democratic process in Honduras is important to our objectives in Central America and vital to U.S public and Congressional support for our close bilateral cooperation.

II. Role of the Military

- o The military remains the most powerful institution, with considerable influence in policy making, especially on issues affecting national security and sovereignty.
- o The military tries to avoid involvement in partisan politics and has supported consolidation of democracy. There is a Honduran tradition of military rule, however, and military intervention in internal politics remains possible if seen as necessary to preserve order or national security.

III. Current Political Conflict Immobilizes Government

- o President Suazo's attempt to control the presidential succession has generated extensive opposition and provoked a bitter confrontation with the Congress.
- o Suazo denounced as unconstitutional Congressional moves to reshape the Suazo-controlled Supreme Court and vetoed election law reforms that would undercut his control of the electoral process by requiring party primary elections.
- o Honduras' non-Marxist labor and peasant organizations -- with military approval -- have demanded electoral reforms similar to those rejected by Suazo.
- o Negotiations, with Catholic Church mediation, appear to be making slow progress amid heated rhetoric. However, acceptance of the labor demands would sharply reduce Suazo's control of the political process and be a serious political blow to him generally.
- o Although the military supported Suazo in the constitutional dispute while making clear its desire to avoid direct involvement, it is increasingly dismayed by Suazo's refusal to accept a compromise solution to the conflict. Military intervention cannot be ruled out.
